**Please Help Us to Protect Madison County's Resources!**

*"Resource" - Something that is necessary and useful; a natural source of wealth to living things.*

The function of a Soil and Water Conservation District is to take available technical, financial and educational resources, whatever their source, and focus or coordinate them to meet the needs of the local land manager with conservation of soil, water and related natural resources. Please take a moment to fill out this questionnaire. This information will be used to update the Madison SWCD Annual Plan of Operations.
