

Organic grain production - marketing, mindset, and weed management

An in-person workshop by OATS

Organic grain can be profitable, but organic production and marketing is a lot different from conventional. Farmers look to ag advisors to offer guidance as they consider transitioning land to organic and in managing organic grain. This event will help ag advisors better understand organic grain production.

Up to 4 hours of CCA credits available!

When: August 19th, 9:30am - 3:00pm ET

Where: Bishop Family Farms, 06362 Township Highway 80 Mount Blanchard, OH, 45867

Who: Ag professionals who would like to learn more about organic grain production

How Much: \$20.00

Local Host Organizations: OSU Extension, Ohio Ecological Food and Farming Association, Bishop Family Farm
